# EXOTIC *Islander*

A composed take on island-inspired design, where pattern, texture and tone come together with ease.

Exotic Islander re-imagines tropical influence through a more refined lens.

Layered botanicals, softened geometrics and intricate detailing create depth without excess, giving each space a sense of calm, not clutter.

The palette is grounded and warm. Muted greens, sun-washed terracotta's and neutrals tones work in quiet harmony, while tactile fabrics and subtle textures bring a lived-in richness.

Every design has been developed to sit effortlessly alongside the next, so building a cohesive scheme feels intuitive.

This is island-inspired design, simplified. Thoughtfully curated, so you can create with confidence.
