

A photograph of a blue velvet sofa in a room with large windows. The windows are framed by dark curtains with a vibrant floral pattern featuring pink, white, and orange flowers on a dark background. The sofa is adorned with three cushions: one with a floral pattern matching the curtains, one in a solid terracotta color, and one with a green and brown leaf pattern. A potted plant is visible on the left side of the frame. The text 'belfieldhome' is overlaid in the upper center.

Our made to measure service

Our made to measure service offers an exciting range of fabrics, including luxurious velvets, sharp geos and opulent metallics to dress the home. Drawing on an eclectic mix of vibes, from country house to exotic island, we will inspire you to create an on-trend interior. We tailor-make an extensive range of made to measure curtains, blinds, cushions and accessories as well as offering fabric by the metre and full pieces.

Our UK base guarantees excellent speed of service, with most orders manufactured and delivered within 14 days.

Made to measure consists of:

- Curtains and roman blinds made to your size and specification.
- A choice of linings.
- A choice of heading styles including 3" pencil pleat, 6" pencil pleat, pinch pleat, eyelets and wave tape.
- A choice of accessories including tiebacks, cushions and valances.
- Fabric is available by the metre and in full pieces (30-40m rolls).
- Sample service - mini curtains, hangers and swatches available.

How to place an order:

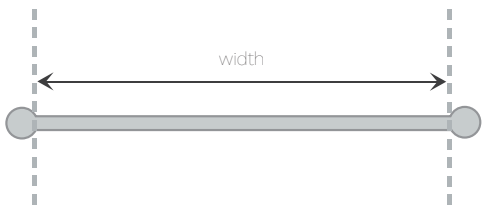

- Measure for your curtains or roman blinds using the measuring guide found on page 8.
- Select your fabric.
- Pick a header if buying curtains or choose a chain colour if buying roman blinds..
- Choose a lining.
- Add your accessories, such as cushions and tiebacks.

How to measure for eyelet curtains

Measuring the width

Already have a pole?
Measure the width of the pole between any decorative finials or end caps.

No pole in place?
Measure the width of the window reveal, then add to this how far you would like your curtains to run past each side of the window reveal.

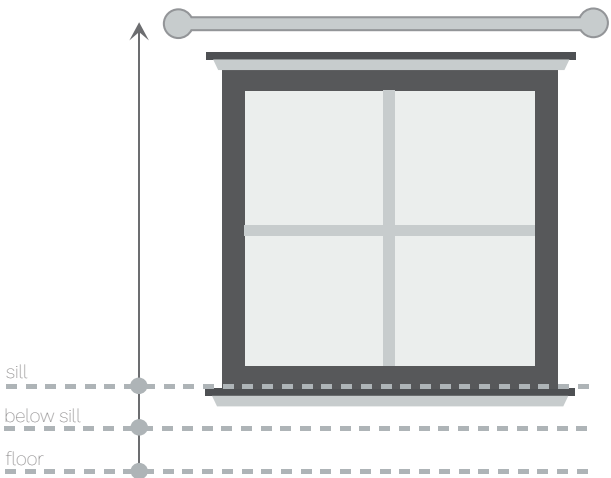

Measuring the length (drop)

What length of curtain will suit your windows?
Do you want them to finish at the sill, below the sill or fall to the floor?

At the sill: Measure from the top of the pole to 1cm above the sill. Add on 4cm for the fabric that will sit above the curtain pole. This is the measurement we require.

Below the sill: Measure from the top of the pole to the required length below the sill (usually 15 – 20 cm). If you have a radiator below your sill, measure to 3cm above the radiator. Add on 4cm for the fabric that will sit above the curtain pole. This is the measurement we require.

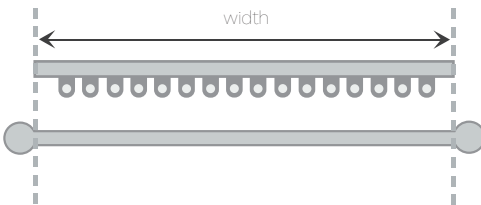

To the floor: Measure from the top of the pole to 1.5cm above the floor. This prevents the curtain dragging on the floor or becoming soiled or damaged. If you want your curtains to drape on to the floor, add to this measurement how far you would like your curtains to drape. Add on 4cm for the fabric that will sit above the curtain pole. This is the measurement we require.

How to measure for pinch pleat and pencil pleat curtains

Measuring the width

Already have a pole or track?
Measure the width of the pole between any decorative finials or end caps OR the width of your track.

No pole or track in place?
Measure the width of the window reveal, then add to this how far you would like your curtains to run past each side of the window reveal.

Measuring the length (drop)

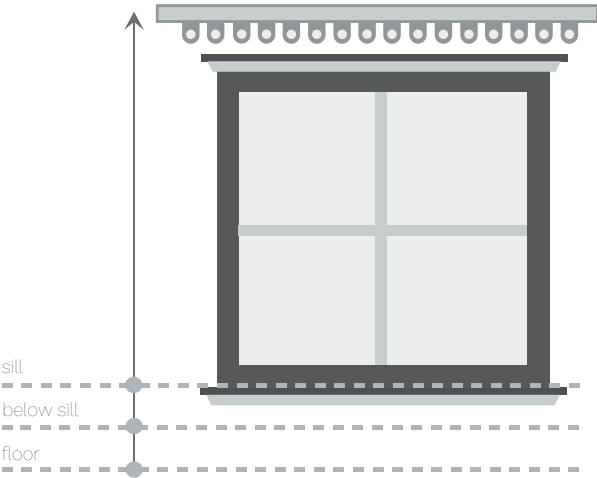

What length of curtain will suit your windows?
Do you want them to finish at the sill, below the sill or fall to the floor?

If you are using a curtain track:

To the sill: Measure from the top of the track to 1cm above the sill.

Below the sill: Measure from the top of the track to the required length below the sill (usually 15 – 20 cm). If you have a radiator below your sill, measure to 3cm above the radiator.

To the floor: Measure from the top of the track to 1.5cm above the floor. This prevents the curtain dragging on the floor or becoming soiled or damaged. If you want your curtains to drape on to the floor, add to this measurement how far you would like your curtains to drape.

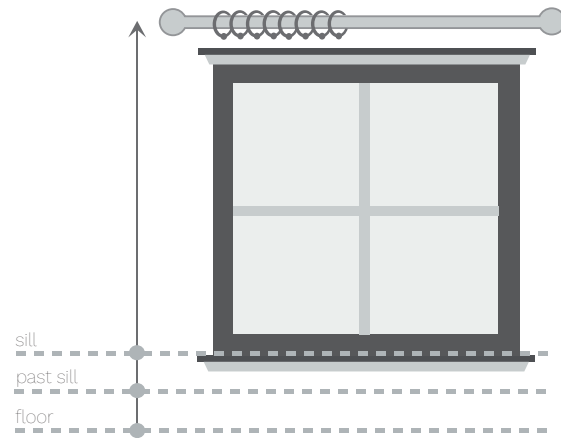

If you are using a curtain pole:

To the sill: Measure from the underside of the pole ring to 1cm above the sill.

Below the sill: Measure from the underside of the pole ring to the required length below the sill (usually 15 – 20 cm). If you have a radiator below your sill, measure to 3cm above the radiator.

To the floor: Measure from the underside of the pole ring to 1.5cm above the floor. This prevents the curtain dragging on the floor or becoming soiled or damaged.

If you want your curtains to drape on to the floor, add to this measurement how far you would like your curtains to drape.

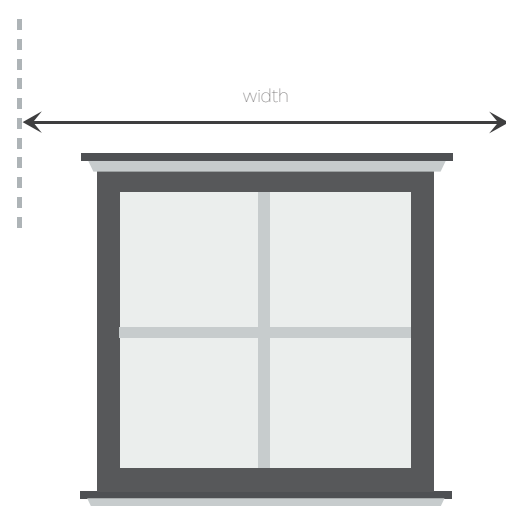

How to measure for roman blinds

Measuring the width

Decide whether or not you want your blind to fit inside the window reveal or outside the window reveal.

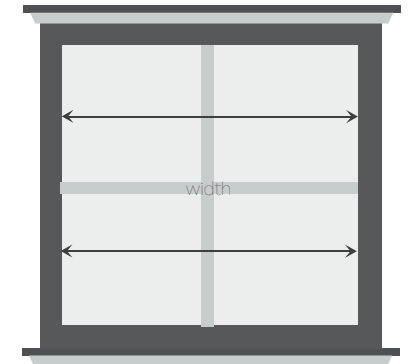

Outside the window reveal:

Measure the width of the window reveal and add to this how far you would like your blind to run past each side of the window reveal. To minimise light leakage we recommend that the blind overlaps the window recess by a minimum of 7cm at the top and 5cm at each side.

Inside the window reveal:

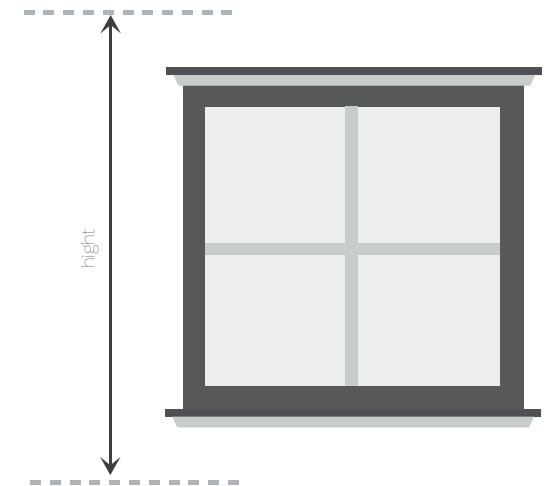

Measure the width of the window reveal at the top, centre and bottom. Take the smallest measurement. We will adjust from this measurement to ensure the blinds do not catch the side of the reveal when raised or lowered.

Measuring the length (drop)

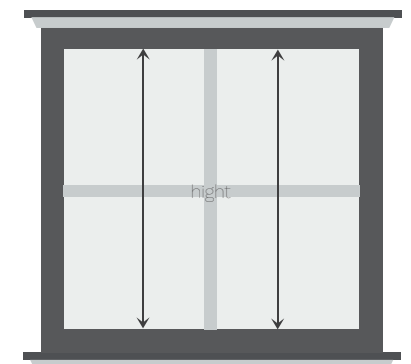

Outside the window reveal:

Measure from the top of where you would like the blind to be to your desired length. The overlap at the bottom of the blind is personal choice but remember to take account of obstacles such as radiators.

Inside the window reveal:

Measure the height of the window reveal at the left hand side, centre and right hand side and give the smallest measurement.

Curtain headers

There are a number of header styles to choose from, including pencil pleat tape, pinch pleat, eyelets or wave tape. All of our curtains come fully lined as standard with sateen twill, or you can upgrade to one of our performance linings, such as blackout or thermal.

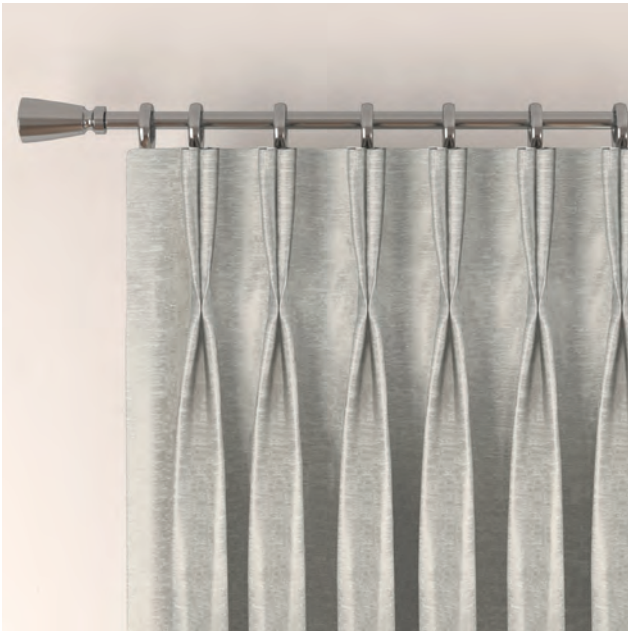

Pinch pleat (triple)

Eyelet (available in six colours: satin silver, nickel, brass, gun metal, old gold, old copper)

Pencil pleat (3" tape)

Pinch pleat (double)

Pencil pleat (6" tape)

Wave tape

Curtains: Pencil Pleat

3” tape

3” tape pencil pleat is the standard heading for curtains. A 7.5cm (3”) tape is used with three hook positions to suit all types of track and pole. Curtains are supplied un-gathered for you to gather to the required width.

6” tape

Similar to 3” tape we offer a deeper pencil pleat heading for curtains using a 15cm (6”) tape. This can be used on all fabric types and is particularly suitable for longer drop curtains.

Recommended number of widths per pair (double fullness)								
Track/pole width	up to 61cm (25")	62-127cm (50")	128-190cm (75")	191-254cm (100")	255-317cm (125")	318-380cm (150")	381-444cm (175")	445-508cm (200")
Widths per curtain:	0.5	1	1.5	2	2.5	3	3.5	4

Number of widths per pair (giving less fullness)							
Track/pole width:	up to 152cm (60")	153-228cm (90")	229-310cm (122")	311-388cm (153")	389-470cm (185")	471-551cm (217")	552-632cm (249")
Widths per curtain:	1	1.5	2	2.5	3	3.5	4

To place your order:

- 1) Measure using the guides on pages 9-10
- 2) Choose your fabric and note the price category
- 3) Select your lining and find your price from the price charts on pages 16-18
- 4) Add surcharges, if appropriate, for 6” tape and/or weights

Surcharge for 6” tape and weights in curtains					
Curtain width	1 w	1.5 w	2 w	2.5 w	3 w
6” tape cost per pair	£14.00	£21.00	£28.00	£35.00	£42.00
Weights per pair	£3.50	£5.25	£7.00	£8.75	£10.50

Sizing information: All sizes quoted are approximate. Please supply all measurements in centimetres to the nearest whole centimetre. Please note our fabrics may vary in width, therefore widths per curtain may vary from 127cm to 140cm. Recommendations given are guidelines and must be used in conjunction with customers personal preference.

Curtains: Eyelets

A contemporary and decorative alternative for use with curtain poles only. Folding curtains into large even pleats, these are easy to hang and drape.

The eyelets are available in six colours – satin silver, nickel, brass, gun metal, old gold and old copper.

As standard the eyelets have an internal diameter of 40mm, suitable for curtain poles with a diameter of up to 30mm.

For a small surcharge, we offer a larger eyelet with a 50mm internal diameter. This is suitable for poles with a diameter of up to 40mm. This is available in the same colours as the 40mm eyelet.

Recommended number of widths per pair (double fullness)								
Track/pole width	up to 61cm (25")	62-127cm (50")	128-190cm (75")	191-254cm (100")	255-317cm (125")	318-380cm (150")	381-444cm (175")	445-508cm (200")
Widths per curtain	0.5	1	1.5	2	2.5	3	3.5	4

Number of widths per pair (giving less fullness)							
Track/pole width	Up to 152cm (60")	153-228cm (90")	229-310cm (122")	311-388cm (153")	389-470cm (185")	471-551cm (217")	552-632cm (249")
Widths per curtain	1	1.5	2	2.5	3	3.5	4

To place your order:

- 1) Measure using the guides on page 8
- 2) Choose your fabric and note the price category
- 3) Select your lining and find your price from the price charts on pages 22-24
- 4) Add surcharges, if appropriate, for 50mm eyelets and/or weights

Surcharge: For 50mm eyelets and weights in curtains					
Curtain width	1 w	1.5 w	2 w	2.5 w	3 w
50mm eyelet per pair	£50.00	£75.00	£100.00	£125.00	£150.00
Weights per pair	£3.50	£5.25	£7.00	£8.75	£10.50

Sizing information: All sizes quoted are approximate. Please supply all measurements in centimetres to the nearest whole centimetre. Please note our fabrics may vary in width, therefore widths per curtain may vary from 127cm to 140cm. Recommendations given are guidelines and must be used in conjunction with customers personal preference.

Curtains: Pinch Pleat

Pinch pleat is a decorative heading for curtains, suitable only for curtain poles. Pinch pleat is a more traditional heading having permanent sewn-in-pleats for a more luxurious, tailored look and are delivered ready to hang.

Adjustable metal hooks are fitted into each pleat. When ordering pinch pleat curtains, we need the exact pole width measuring between the finials. It is important this measurement is correct as pinch pleat heading is sewn in and therefore fixed. It is not possible to adjust this heading once it is made. We will gather your curtains to the correct size to fit your pole. Please state either triple pleat or double pleat heading on your order.

Please note that on a standard triple pinch pleat heading there will be 4 pleats per width. On a double pinch pleat heading there will be 6 pleats per width.

Recommended number of widths per pair (double fullness)								
Track/pole width	up to 61cm (25")	62-127cm (50")	128-190cm (75")	191-254cm (100")	255-317cm (125")	318-380cm (150")	381-444cm (175")	445-508cm (200")
Widths per curtain	0.5	1	1.5	2	2.5	3	3.5	4

To place your order:

- 1) Measure using the guides on pages 9-10
- 2) Choose your fabric and note the price category
- 3) Select your lining and find your price from the price charts on pages 28-30
- 4) Add surcharges, if appropriate, for buttons and/or weights

Surcharge: For buttons on pinch pleat and weights in curtains					
Curtain width	1 w	1.5 w	2 w	2.5 w	3 w
Buttons per pair	£12.00	£18.00	£24.00	£30.00	£36.00
Weights per pair	£3.50	£5.25	£7.00	£8.75	£10.50

Sizing information: All sizes quoted are approximate. Please supply all measurements in centimetres to the nearest whole centimetre. Please note our fabrics may vary in width, therefore widths per curtain may vary from 127cm to 140cm. Recommendations given are guidelines and must be used in conjunction with customers personal preference.

Roman Blinds

Most fabrics are available as roman blinds. The main exclusions are heavy pile fabrics such as velvets and heavily textured fabrics. All roman blinds are fully lined and are supplied complete with aluminium head rail and brackets ready for hanging. All roman blinds are lined with sateen twill lining as standard.

Alternative linings

Roman blinds can also be made with a choice of alternative linings. Please choose from solprufe, thermal, blackout or supersoft. Further prices can be found in this book.

Blackout lining

Please note that with blackout lining some light will still be visible around the edges of the blind. We recommend that blinds extend approx. 10cm beyond the window recess on all sides. Some light will also be visible along the stitch lines and this is unavoidable.

Premier head rail

Our 'premier' head rail is a fully enclosed system with a sidewinder mechanism. A pulley chain is used to operate the blind.

Chains

Please select either a right hand or left hand control position for the blind (if no selection is given a standard right hand control will be installed). The customer is also required to choose a silver or white chain (if no selection is given a standard silver chain will be installed).

To allow us to comply with current health and safety legislation, please supply the following information when ordering:

- **Installation Height:** Measurement from the top of the blind to the floor.
- **Overall Drop of Blind:** Measurement taken from the top of the blind to the bottom of the blind.

Trims

We also offer a small selection of trims that have been designed to co-ordinate with some of our made to measure collections. These can be added to the bottom edge of your blind. Trims are not recommended for use in children's bedrooms, as small parts may become detached and pose a choking hazard.

Trims on Roman blinds	
Surcharge; to be added to each Roman blind price	
Size	Price
up to 66cm	£17.50
up to 127cm	£29.00
up to 198cm	£40.50
up to 239cm	£49.00
up to 300cm	£57.75
Price per metre: £16.00	

Blinds can be fitted on either the inside or outside of a window recess. We recommend you position your blind outside the recess if the window is not straight to avoid the blind catching or hanging incorrectly. Another reason for having the blind on the outside would be if your window opens inwards. If more than one blind is being fitted to a window (for example in a bay window), please order the blind size required for each window as this may vary.

1) Measure the width

To fit your blind inside the recess: If ordering a blind to fit inside the recess, measure the width of the recess in 3 different positions. Supply the smallest width on the order form and we will make the necessary allowances for you by deducting 0.5cm.

Please note any protrusions (such as tiles and wooden rails) and take the smallest width and drop measurement.

To fit your blind outside the recess: Simply measure where you would like the blind to sit and supply that measurement. No allowance will be made and the dimensions supplied will include head rail and brackets.

We recommend that a blind does not extend more than 10cm either side of the window and approximately 10cm above and below. If the window ledge protrudes out we suggest that the blind sits just above or on the sill once closed.

2) Measure for the finished drop

To fit it to the recess: Measure the recess drop in 3 different positions. Supply the smallest drop on the order form.

On the outside of the window (i.e. blind size):

Simply measure where you would like the blind to sit and supply that measurement.

3) Choose your fabric and note the price category

4) Select which lining you require and find your price on the following pages.

Valances

Plain valances are available in straight or shaped styles and are suitable for most fabrics. All valances are supplied with 3” tape pencil pleat as standard.

We always recommend ordering lined valances with curtains and using the same lining if selecting one of our premium linings on your curtain. All prices for valances can be found in this book. We do not charge extra on valances for ordering different lining to our standard sateen twill.

Measuring: Pencil pleat valances are available to fit all valance rail widths from 97cm to 380cm. For valances wider than 380cm please contact us for advice.

Surcharge: Velcro tape on valances					
Valance width	2 w	3 w	4 w	5 w	6 w
3” Tape velcro	£9.50	£14.25	£19.00	£23.75	£28.50
Pinch pleat velcro	£18.50	£27.75	£37.00	£46.25	£55.50
Surcharge: Buttons on pinch pleat velcro valances					
Valance width	2 w	3 w	4 w	5 w	6 w
Buttons on pinch pleat velcro	£12.00	£18.00	£24.00	£30.00	£36.00

1) Choose your heading type

- Pencil pleat (3” tape)
- Double pinch pleat
- Triple pinch pleat

2) Choose straight or shaped

Choose either a straight or shaped valance as shown (two sizes available on shaped valances)

3) Choose the drop of your valance

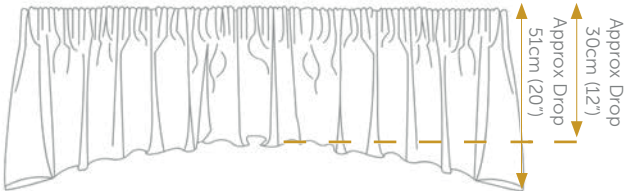

- Straight 35cm (14”)
- Shaped 40cm (16”)
- Shaped 51cm (20”)

4) Choose your fabric

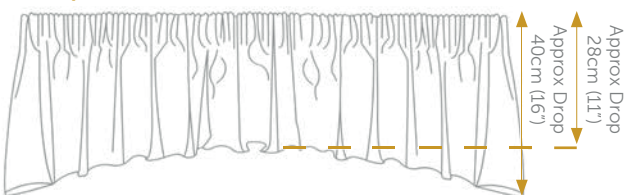

5) Note the price category

6) Find your price on the next page

Tiebacks

All fabrics are available as tiebacks and come in pairs with either a plain or piped edge. Piped edge tiebacks can either be self-piped or ordered with any fabric for contrast piping. The price will be the same if it is self-piped or contrast piped. If the customer is unsure what size tieback is needed our factory will make the best size to suit the width of a curtain. As a guide we would recommend the following sizes are appropriate:

Tieback size	Small 59cm (23")	Medium 76cm (30")	Large 90cm (35")
Recommended curtain size	1 width	1.5 to 2.5 width	3 width

However in some circumstances where a fabric is particularly thicker we would suggest looking at ordering the next size up.

Tiebacks are the same price whichever size is selected. Please select either brass or silver rings before ordering your tiebacks. We would usually recommend matching this to your pole colour.

1) Choose your fabric

2) Choose your edge

Plain edge, self piped edge or contrast piped

3) Choose ring type

Brass or silver ring

	A	B	C	D	E	F
Plain	£47	£47	£52	£57	£60	£67

Piped (self or contrast)	£52	£52	£57	£62	£65	£74
--------------------------	-----	-----	-----	-----	-----	-----

Cushions

Cushions are supplied with a polyester pad as single cushions. All fabrics are suitable for cushions and help bring a co-ordinated look to a room.

Cushions can be made with a plain edge or piped edge. Piped edge cushions can either be self-piped or ordered with any plain for piping. The price will be the same if it is self-piped or contrast piped. Please state when ordering.

1) Choose your fabric

2) Choose your edge

Plain edge, self piped edge or contrast piped

3) Choose size - Available in the following sizes

Cushion sizes	43x43cm (17"x17")	50x50cm (20"x20")	60x40cm (23.5"x16")
---------------	-------------------	-------------------	---------------------

On large scale pattern repeats we can't guarantee that each cushion will follow the exact same pattern match. For example on a floral design, we will always ensure that a flower is positioned on the cushion to give the best lay of the fabric. But if two cushions are ordered, a different flower head might be positioned on each cushion.

		A	B	C	D	E	F
43cm x 43cm (17")	Plain	£22	£24	£26	£28	£29	£31

	Piped (self or contrast)	£42	£44	£48	£53	£55	£60
60cm x 40cm (24" x 16")	Plain	£22	£24	£26	£28	£29	£31
	Piped (self or contrast)	£30	£33	£37	£40	£42	£47

Important information

Fabric by the metre

Fabric can be ordered by the metre as cut lengths, or full pieces. Please inspect the fabric for quality and colour upon receipt of your order as no claim can be accepted after cutting. Please see our separate fabric price list for further information.

	A	B	C	D	E	F
Cut Length	£23	£26	£29	£36	£41	£45

Swatch service

A5 swatches are provided upon request via email to sales@jones-interiors.com

Colour matching

Due to variations in dye from batch to batch, we can't guarantee an exact shade match on different orders or against curtain samples. We will always shade match within the same order.

Shrinkage

All fabrics are liable to shrinkage up to 5% when washed or dry cleaned. Always follow the washing instructions found in the care label. Atmospheric shrinkage can occur between seasons depending on changing temperature and humidity; this is not a fault of the fabric and can't always be avoided. Lined products should not be washed as the curtain fabric and lining may shrink at a slightly different rate, potentially causing the lining to hang below the curtain fabric, or create tension on the side seam. A guide to hanging and caring for your curtains is enclosed with all orders, which we recommend is kept for future reference.

Pattern repeats

Pattern repeats on all fabrics are approximate and may vary from batch to batch. Please ensure that you allow sufficient fabric to cover your requirements if ordering fabric by the metre. We suggest customers add one full pattern repeat on cut length orders.

Pattern matching

All curtains will be pattern matched from the top, unless otherwise stated. If multiple pairs of curtains or roman blinds are required for the same room, please state pattern match from the top on the order. Pattern matching means that when the curtains are hung, the pattern is the same position horizontally across the curtains. No curtains can match edges as the fabric is turned at the sides to form the side hem. Pattern matching on seams is as close as can be achieved. It is not always possible to guarantee an exact pattern match on joins and seams.

Embroidered fabrics

Please note that embroidery fabrics have a usable width and the embroidery does not run the full width of the piece.

Joins

All curtains wider than 127cm are made from multiple joined widths of fabric. Joins will be pattern matched as standard.

Caring for your made to order products

When you unpack made to order product, there may be creasing or pressure marks. These will normally fall out quickly after hanging in a warm room. Alternatively, your product (unless made from a velvet fabric) may be lightly ironed with a warm dry iron on the reverse side. Hems and sides should never be pressed. Steam and excessive pressure or temperature should be avoided as these can stretch or shrink the fabric. The cords on pencil pleat curtains must be tied at the end before the heading can be gathered. To improve the drape of your curtains we recommend that once they have been dressed into an even fold, they be loosely tied with ribbon in two or three places. This will encourage the curtains to retain an even fold when the ties are released.

Ordering single curtains

Single curtains are available in all fabrics. When the curtain is 127cm wide (1 width), 254cm wide (2 width) or 380cm wide (3 width), single curtains are available at 50% of the price of a pair of curtains. Single curtains that are either 190cm wide (1.5 widths) or 317cm wide (2.5 widths) need to be priced at the next full width price. For example, 1 single curtain that is ordered as 190cm wide (1.5 width) will be charged at 50% the price of a 254cm wide (2 width).

Ordering smaller curtains

We can make a pair of 0.5 width curtains. This would be charged at half the price of the 1 width price. However, we can't cut widths down any other integer, for example to 0.75 width.

Ordering larger curtains

Please call 01159 738 708 or email sales@jones-interiors.com for assistance if unsure how to price these.

Measuring

On page {insert page number} we have provided a measuring guide for curtains and roman blinds. All orders must be placed with measurements given in centimetres. The conversion for inches to centimetres is 2.54cm to 1".

Ordering

Please email your orders to sales@jones-interiors.com

Cancellations/amendments
Orders can not be cancelled or amended once production has started. Please call us on 01159 738 708 to check the status of your order. Any agreements to cancel or amend will be confirmed in writing.

Delivery charges

Orders below £350 will be charged at £8 per order. Delivery is free for any orders above this value.

Proof of delivery

Please check all packages at the time of delivery. If the goods arrive via carrier, the consignment should only be signed for as 'received in good condition' if you are completely satisfied that the goods contained are not damaged. Once this is done the goods become your responsibility.

Return procedure

Claims or returns can only be made on made to measure products if the item is faulty. If there are any issues with your order upon receipt, please contact the team on 01159 738 708 to discuss next steps.
