

Black Operating Chain for SG 4910 Roller Blind

As a further enhancement to our 'Silence in Black' product range, we are pleased to advise that we now offer a black operating chain for our **SG 4910** roller blind.

Combined with the black brackets and bottom bar, the SG 4910 can completely embrace the black colour concept. Blinds specified with black hardware will be supplied with black chain as standard at no additional cost.

Blinds using white or grey hardware will be supplied with a silver chain as standard with black as optional.

Please note that at this current time we are not able to offer a black operating chain for the SG 4930.

For more information please contact your Silent Gliss representative.
