

Move 4.0

We are delighted to advise that the Silent Gliss Move 4.0 Server is now available, offering App control of your motorised curtain and blinds from your smartphone, tablet or desktop.

The new elegant and sleek black design bring with it many features and benefits for your comfort and convenience.

- It is compatible with a wide range of Silent Gliss systems that feature 9940 receivers (Control L).
- Access is via a free App that also includes free remote access.
- Communicates on 868GHz frequency which has excellent range.
- The WiFi 2.4 GHz connection has a long range and will pass through walls and solid objects.
- Move 4.0 is compatible with Amazon Alexa and Google Home. It is not directly compatible with App Home Kit; however, some functions are possible with Apple shortcuts.

Supplied with a UK plug, set-up and configuration is simple by downloading the Silent Gliss **Move 4.0** App and scanning the QR code on the server unit. Please note that the old/existing Move App will not work with the new Move 4.0 server.

We recommend purchasing a Control L (System 9940) handset for easy programming and operation outside the app.

Part number: SG 11900
Available from: 1st February 2025
Price: £400.00 + VAT Cat C

Best regards,

Silent Gliss Ltd.
