Cross Section Graphics SG 5600

We are pleased to offer 5 new images explaining the SG 5600 motor position and track fitting options.

1. Surface mounted profile.
2. Comparison of surface mounted and recess fitted profiles.
3. Surface mounted system with motor underneath.
4. Recess fitted system with motor underneath
5. Recessed fitted system with inverted motor. **Please observe the importance of ensuring access to the motor for maintenance purposes.**

Reminder: these graphics are in addition to the existing animations explaining the recess fitting process.

You can download these from the [Silent Gliss Website → Downloads → Pictures and Videos](#) → SG 5600

We hope you find these new resources useful.

Best regards,
Silent Gliss Ltd.
